GEHL COMPACT EQUIPMENT

EXCAVATORS

Zero-tail without compromise.

The 383Z Compact Excavator has all the benefits of zero-tail-swing maneuverability without compromising performance, comfort or serviceability.

- Spacious Cab
- Cab tilts for easy service access
- Standard Auxiliary Hydraulics
- Long undercarriage increases stability under heavy digging conditions

A different breed of compact excavators. Compact excavators provide excellent maneuverability without sacrificing operator comfort.

- Hydraulic system allows for simultaneous movement without power loss
- Exclusive house leveling (Models 223 and 373)
- Minimal tail swing allows maneuvering in small spaces

TELEHANDLERS

Reach new heights, now up to four stories! RS Series Telescopic Handlers from Gehl have extended lift heights up to 55' making material placement easy.

- Frame tilts 10° left or right for stability on uneven terrain
- 115 hp 4-cylinder turbo-charged diesel engine

WIDE VARIETY OF AVAILABLE

LOADED

TAKES ON THE TOUGHEST JOBS

LOADERS

Go ahead, make tracks. With a low ground pressure, the compact track loaders from Gehl can work efficiently on muddy and sensitive surfaces.

- Heavy-duty undercarriage structure and rubber tracks function well in muddy or loose ground conditions
- Pilot-operated joystick controls provide precise finger-tip control

Lean, mean working machines.

With powerful Yanmar diesel engines, the 3640E and 4240E are "little giants" that maneuver easily in tight spaces and handle tough challenges.

- Compact, low-profile design for maneuverability in narrow, low-clearance areas
- Spacious operator's compartment with choice of controls
- All-Tach™ attachment mounting system

The strong, quiet type. With their power, speed, reach and visibility, these Skid Loaders have everything needed to get the job done quickly and comfortably.

- Innovative accoustical materials reduce interior cab sound levels
- Standard ground speeds up to 8.5 mph, or 12.5 mph with optional two-speed drive
- Exceptional hydraulic power
