

FEATURING:

Equipment Inspection Checklists

CSA Regulations state that a lift truck must be inspected before the beginning of each shift and a record be kept on file. The Checker Inspection Checklists provide a simple solution that ensures the operator completes this important task. The forms are handy and easy to complete. Waterproof cases are also available.

The Checker Inspection Checklists are available for over 200 types of Equipment for every industry!

See the full title list on page 2 of this flyer for the wide variety of options.
