

BRS 40/1000 C Part No. 1.783-222 SPEC SHEET

HIGH SPEED ROLLER BRUSH FLOOR MACHINE

Scrub, strip and polish with one machine. The industry-exclusive BRS 40/1000 C eliminates the sore hands, wrists, arms and backs associated with conventional rotary disk floor machines. Scrubs and strips floors close to any wall without splashing the baseboards. Can be operated in a side-to-side or push-pull motion. People apprehensive or afraid of "swing" machines will just love using the BRS 40/1000 C. Low profile allows cleaning where most floor machines can't go. Large selection of roller brushes and pads to tackle any floor maintenance procedure or task.

Technical Data

Power	120 V electric
Cleaning Width	16"
Productivity (max. theoretical)*	5,000 sq. ft. per hour
Realistic Productivity Rate*	3,000 sq. ft. per hour
Cleaning Brush Speed	1100 RPM
Weight	59.5 Lb.
Dimensions (LxWxH)	19.4"x18.1"x47.2"

* Realistic productivity rate takes into consideration filling, emptying, and maneuvering in average cleaning conditions. Maximum theoretical cleaning speed does not, it simply states the cleaning width times the maximum travel speed of the machine to arrive at a high square foot per hour cleaning rate. Realistic productivity rate for average floors is about 60% of the maximum theoretical figure and is much more accurate when deciding what is an appropriate size of machine to purchase.

Standard Accessories

	Part Number
Standard Scrub Brush- White (2)	4.762-458
Cleaning Solution Tank- 2.64 gal.	4.783-005
Heavy Duty 12 Gauge Extension Cord	9.512-249

Optional Accessories

	Part Number (note: brush part numbers are each, not as a set of 2)		
Soft Scrub Brush- For sensitive floors	4.762-250	Cylindrical Pad Shaft (2 required)	4.762-228
Hi-Lo Scrub Brush- For grout and tile floors	4.762-251	Microfibre Roller (requires pad shafts)	4.114-003
Grit Brush- Aggressive, heavy duty	4.762-252	White Polish Pad Pack (2 required)	6.369-388
Carpet Cleaning Brush	4.762-254	Yellow Scrub/Polish Pad Pack (2 required)	6.369-451
Very Soft Brush	4.762-274	Red Std. Scrub Pad pack (2 required)	6.369-453
		Green Hard Scrub Pad Pack (2 required)	6.369-452
		Additional Weight Kit (15 lb.)	5.031-790

Material Handling Specialists

BRS 40/1000C High Speed Roller Brush Floor Machine

Feature

- Choice of operation
- Easy to use and understand
- Employee assignment
- Floating handle
- Low profile
- Cleaning solution direction
- Cleaning solution dispensing
- Floor stripping, cleaning & polishing productivity
- Extremely quiet operation
- Rear transport wheels
- Folding handle
- Large selection of brushes and pads

Value-added Standard Features

- Buyer parts availability protection
- Service availability
- Karcher cleaning application "know-how"
- Customer assistance

Benefit

- Choose side to side or push-pull motion. Eliminates operator fatigue, damage to walls and furniture
- Very little training required compared to rotary disk swing machines. Operators are not apprehensive to use
- Non-straining, non-fatiguing operation allows the use of "light-duty" designated workers
- Outstanding maneuverability around furniture and other obstacles. Allows effortless turning in narrow hallways
- Low height cleans where rotary disk machines can't go
- Liquid is directed towards center of machine. Eliminates splashing of walls or baseboard build-up. Cleans corners
- Convenient control on handle does not confuse operator
- High speed roller brushes exert up to 5x more friction than conventional floor machines. Faster results
- Can be used without creating a noise disturbance
- Allows easy moving of machine to different locations
- Machine will fit into trunk of small automobiles
- Configure BRS 40/1000 precisely to the cleaning task

- Parts available seven years after model discontinuation
- Service locations in every major Canadian centre
- World-wide experience, can resolve any cleaning issue
