

NT 35/1

Part No. 1.184-804

SPEC SHEET

High Performance Self-Cleaning Wet & Dry Vacuum

Our NT 35/1 provides dependable trouble-free operation utilizing self-protecting features unlike any other commercial wet dry vacuum available on the market today.

A patented filter mechanism allows continuous fine and coarse dust retrieval without any need to shut down for filter cleaning. This function is performed automatically while the machine is in use. Suction remains constant throughout the entire job, be it drywall powder, sawdust, sandings, just about any kind of dust and debris encountered in commercial cleaning applications.

No filters or inserts to install or remove when switching from wet to dry work, or back again. Nothing for the operator to remember or forget which means no accidental damage to the machine.

An electronic tank level monitor shuts the vacuum motor off completely when maximum capacity is reached, including light detergent foam.

Triggered Air draft
Cleaning Technology

Technical Data

Vacuum Motor	1265 watt (max.)
Air Flow Rating (CFM)	120
Water Lift Rating	88"
Tank Capacity	9.2 gallon (35 l)
Noise Level	64 db(A)
Cord Length	25 ft.
Weight	25.3 lb.
Dimensions (L x W x H)	20.4 " x 15" x 22.8"

Standard Accessories

	Part Number	
8' x 35mm Hose	6.906-208	Paper Filter Bag (1 sample bag) 6.904-210
Metal Wand (2 x 19.6")	6.900-514	Standard Dust Filter Element 6.904-367
Floor Tool (11.8")	6.906-512	
Crevice Tool (11.4")	6.906-240	

Optional Accessories

	Part Number	
HEPA Dust Filter Element	6.904-242	Metal Crevice Tool 20" 6.900-922
Waterproof Dust Filter Element (PES)	6.904-190	Vehicle Cleaning Tool 6.906-108
Paper Filter Bags (5 per pkg.)	6.904-210	Curved Pipe Tool (4" dia) 6.903-035
Fleece Filter Bags (5 per pkg.)	6.904-351	Curved Pipe Tool (8" dia.) 6.903-036
Heavy Duty Metal Floor Tool 14"	6.906-384	13.1' Vacuum Hose 6.906-241
Heavy Duty Plastic Floor Tool 14"	6.906-513	32.5' Vacuum Hose 6.906-242
Stainless Steel Wand (2 pcs. Required)	6.902-046	Hose End Repair Kit 2.639-682

Material Handling Specialists

NT 35/1 Wet & Dry Self-Cleaning Vacuum Cleaner

Feature

Motor

- Strong suction capabilities, overload protected
- Low 64 db(A) noise level
- Electronic liquid level vacuum motor protection

Filtration

- High performance filter element
- Self cleaning filter
- Self-protection of machine
- Filter bag options

Body & Base

- Rugged housing and base
- Large rear wheels
- On-board tool & accessory storage
- Swivel vacuum hose
- Crush-proof vacuum hose

Value-added Features

- Buyer parts availability protection, service coast to coast
- Customer assistance

Benefit

- High air-flow (120 CFM) and water lift (88") ratings
- No disruption from loud vacuum cleaner noise
- Power to motor is stopped when tank reaches maximum liquid level capacity
- Large surface area provides longer operation before cleaning is required. Very effective on fine dust. HEPA and waterproof filter options available
- Filter cleans itself while vacuum is being used, no work stoppage from plugged dust filters
- Switch from wet to dry, dry to wet work without the need to add or remove additional inserts. Machine protects itself against accidental misuse or operator forgetfulness
- Paper bags for convenient disposal of debris and additional fine dust control. Wet filter bags for combined wet and dry cleaning operations
- Impact-resistant construction. Base bumper protects furniture and fixtures
- Provides excellent stability and mobility. Machine can be moved up or down stairs with ease
- Wands and tools stored on machine, nothing extra for operators to carry
- Vacuum hose swivels at hand grip and machine end. No twisting or kinking, much more comfortable for operators to use
- Lightweight, yet exceptionally strong hose. Optional lengths available for specialty cleaning applications
- Parts availability for seven years after model discontinuation. Kärcher service availability across Canada
- 1-888-705-9444 help line or self-help diagnostics on the Kärcher web site: www.karcher.ca
