

## T 12/1 Dry Canister Vacuum Cleaner

### Feature

#### Motor

- 1.7 Horsepower Motor, thermal overload protected
- Low 61 db(A) noise level
- Secondary protection filter on motor

#### Filtration

- Can be used without paper filter bags
- Filter bag options

#### Canister

- Rounded design, large rear wheels, front swivel casters
- Vacuum head removes easily
- Canister acts as its own bumper

#### Tools

- Durable metal wand with combination floor tool
- Flexible Hose, 1¼" diameter (32 mm) tools
- Additional tool options

#### Value-added Features

- Buyer parts availability protection, service coast to coast
- Customer assistance

### Benefit

- Strong suction capabilities, motor protects itself from overheating due to overfull bags or hose obstructions
- No disruption from loud vacuum cleaner noise
- Protects motor from damage caused by burst bags or operators forgetting to install basket filter insert
- Economical, simply install standard basket filter
- Fleece filter bag dust retention 2X higher than standard paper bags. Also HEPA filter option.
- Rolls away from obstacles such as desk or chair legs without getting caught. This reduces the chance of damage to hose or power cord when operator uses excessive force to free the machine from being stuck
- Fast and easy access to basket filter, secondary filter, fleece, cloth or paper filter bags
- Protects furniture and walls from damage
- Long-life wand, floor tool has rollers for easy use
- Light, non-fatiguing, easier for smaller operators to get hands around compared to 1½" tools
- Inexpensively add a wider floor tool, longer hose, clip-on hand tool kit, etc. Large choice of quality tools
- Parts availability for seven years after model discontinuation. Over 130 Kärcher service centers
- 1-888-705-9444 help line or self-help diagnostics on the Kärcher web site: [www.karcher.ca](http://www.karcher.ca)
