

Front and Top Load Parts Washers

Overview

Cuda Parts Washers offer a powerful, solvent-free solution for cleaning components across various industries. Designed for durability, efficiency, and ease of use, these industrial washers simplify the cleaning process while reducing environmental impact.

Front Load Parts Washers

Front load parts washers are built for heavy-duty applications, with load capacities ranging from 500 to 5,000 pounds. These machines function like "industrial dishwashers," providing automated cleaning through high-powered aqueous solutions.

Key Features:

- Ergonomic design with knee-high turntables and chest-high controls.
- Space-saving roll-in door design prevents dripping and allows easy access to the wash chamber.
- Multiple models with turntable diameters from 25 inches to 72 inches.
- High-performance vertical seal-less pumps (3 HP to 7.5 HP) delivering up to 200 GPM at 50 PSI.
- Electrical configurations include 208V, 230V, 460V, and 575V options.

Applications:

- Ideal for industries such as automotive, trucking, oil and gas, heavy equipment, and manufacturing. Models like the 2530 Series offer compact solutions for smaller parts, while the 7248 Series accommodates large industrial components.

Front and Top Load Parts Washers

Top Load Parts Washers

Top load washers are compact yet powerful, capable of cleaning parts up to 500 pounds. Their design features a rotating turntable or spray arm for thorough cleaning in a small footprint.

Key Features:

- Load capacities from 250 to 500 pounds.
- Pumps ranging from 0.5 HP to 3 HP delivering up to 50 GPM at 45 PSI.
- Sump capacities from 23 to 90 gallons.
- Convenient features include caster wheels, gas-strut-assisted lids, and debris prevention screens.
- Electrical configurations include 115V, 208V, 230V, 460V, and 575V options.

Applications:

- Top load washers are perfect for cleaning small to medium-sized parts in industries like automotive, light manufacturing, and maintenance workshops. Models like the 2412 Series provide a budget-friendly entry-level option, while the 2518 Series offers advanced automation and easy maintenance for high-demand environments.
- Cuda's range of front and top load parts washers ensures there's a solution to meet the specific needs of your cleaning requirements. From compact designs to heavy-duty models, these washers deliver reliable, efficient performance for any application.
