

Atomik Air®

Revolutionary Air Quality Control Unmatched Performance

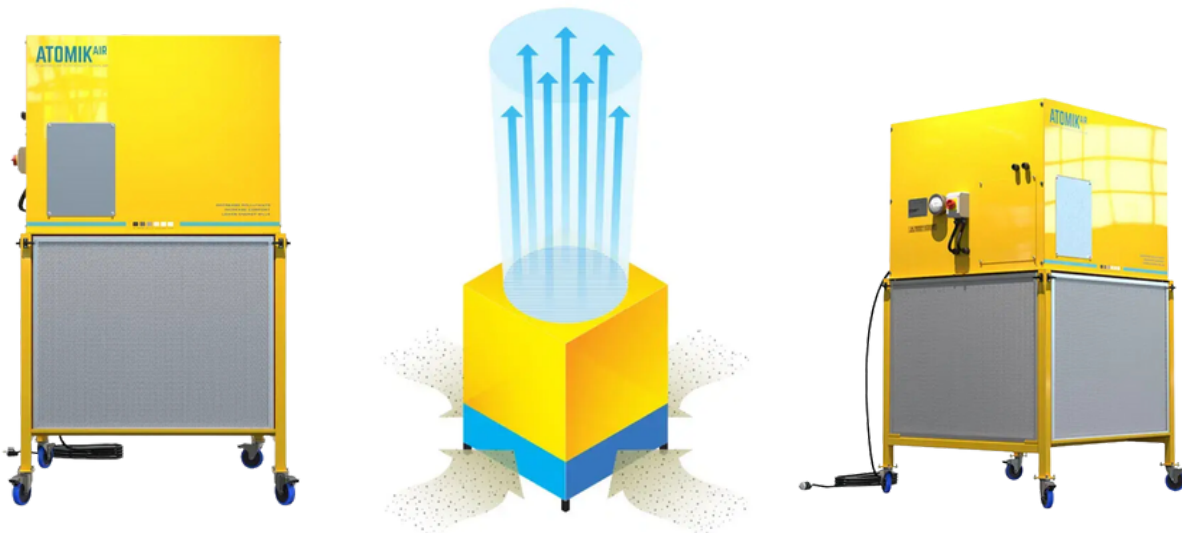

- Airflow: Processes 1 million cu ft/hr, ensuring cleaner, healthier air in large spaces.
- Filtration: Industry's only washable MERV 13 filters capture 99% of particles as small as 0.3 microns, reducing dust, allergens, and pollutants.
- Circulation: Stabilizes temperature gradients, saving up to 40% on heating costs in winter and improving summer cooling with deflectors.

Efficient and Quiet

- Covers up to 40,000 sq ft per unit with low sound levels comparable to an office environment.
- Enhances energy efficiency, making workspaces more comfortable year-round.

Sustainable Benefits

- Reduces airborne bacteria, viruses, and mold for a healthier workforce and fewer sick days.
- Extends equipment life by minimizing dust buildup and decreases spoilage in refrigerated areas.
- Cuts cleaning and maintenance costs while supporting sustainability goals.

Jade 2.0

Shh. Vroom. Zap.

Powerful Air Quality Control for Commercial and Office Use

JADE2.0 is a flexible and efficient air quality control system that quietly filters, cleans and re-energizes the workplace atmosphere.

Cleaner air can lead to clearer thinking, better productivity, fewer sick days and happier, more-engaged staff.

JADE2.0 features 6 levels of filtration and whisper quiet operation. (<50 dB!) And, the JADE2.0's UV-C stage ruptures the DNA of viruses and bacteria.

Features

- Easily cleans/purifies a large workplace
- Quiet, non-disruptive operation
- Lowest cost per cu ft of air cleaned (5 yrs.)
- 6 stages of filtration provide excellent results
- Removes harmful pollutants and contaminants
- Features virus-eliminating UV-C chamber
- Large control screen built-in timer
- Change filter notification
