

Compact Sweepers

Compact sweepers and walk-behind vacuum sweepers provide efficient, low-dust cleaning for courtyards, paths, workshops, and halls. These ergonomic machines offer easy handling and thorough performance, including in corners, with models available for areas from 300 m² up to larger indoor spaces. Key models include the KM 70/20 C, KM 75/40 W Bp, and KM 105/180 R Bp Classic, each equipped with robust features like adjustable sweeping surfaces, automatic filter cleaning, and durable components for low maintenance. The LS175 mini sweeper offers a closed-cabin design, optional pressure washer, and high-dump capacity ideal for sidewalks, parking lots, and curbside sweeping, with a 10 to 12-year lifespan and Sourcewell purchasing options.
