

Grab Bars and Accessories

Grab bars are essential safety fixtures in washrooms, providing support and stability for individuals with mobility challenges. Designed to prevent slips and falls, they are ideal for public restrooms, homes, and healthcare facilities.

Features

- Made from stainless steel or reinforced plastic.
- ADA compliant for accessibility.
- Corrosion-resistant and durable.
- Available in straight, 90°, swing-up, and swing-away designs.

Benefits

- Enhances safety in wet environments.
- Provides sturdy support for users with limited mobility.
- Easy to install and maintain, with concealed mounting options.

Types of Grab Bars

- **Straight Grab Bar:** Simple design for general use, available in various lengths.
- **90° Grab Bar:** Angled for additional support in corners.
- **Swing-Up Grab Bar:** Space-saving design that swings away when not in use.
- **Swing-Away Grab Bar:** Rotates 180°, ideal for areas with limited space, includes an integrated toilet paper dispenser.
