

Industrial Overhead Lockers (Mine Dry)

- Transform your changeroom experience with the revolutionary LOCKERBASKET® system, engineered to redefine storage solutions with unparalleled efficiency and hygiene. Designed for industries where cleanliness and functionality are paramount, our fully integrated system offers a range of benefits that elevate your facility to new standards of excellence.

Features

- **100% Ventilated Clothes Storage:** Ensure optimal air circulation and freshness for stored garments, promoting hygiene and reducing odors.
- **Sanitary:** Designed with cleanliness in mind, the LOCKERBASKET® system prevents moisture buildup and maintains a hygienic environment throughout.
- **Complete and Fully Integrated System:** From design to installation, The Moore Company delivers a seamless solution tailored to your specific needs, ensuring every aspect of the LOCKERBASKET® system enhances your facility.
- **40% Reduction in Changeroom Building Costs:** Streamline your project budget with our efficient design, reducing construction expenses without compromising quality or functionality.
- **Bright, Open Changeroom:** Enjoy a spacious and inviting environment with our system, enhancing user comfort and satisfaction.
- **85% Open Floor Area:** Maximize usable space with minimal obstruction, optimizing flow and accessibility within your changeroom layout.
- **Lower Clean-up Costs:** With easy-to-clean surfaces and minimal corners, the LOCKERBASKET® system simplifies maintenance, reducing both time and expenses associated with upkeep.
- **Pilfer Proof:** Secure your belongings with confidence. Our system provides robust security features to safeguard personal items, ensuring peace of mind for users and management alike.
- **Visual Inspection:** Easily monitor contents with clear visibility through ventilated baskets, facilitating quick inventory checks and enhancing operational efficiency.
