

Intruder Defense Systems

- The BILCO Company has teamed up with Troy Lowe, a military veteran and SWAT team member, to manufacture door security devices. Designed based on Lowe's experience as a law enforcement professional and an active-shooter training instructor, these locking devices can be installed in a matter of seconds in emergency situations to protect occupants against building intruders.

Features and Benefits:

- Fast and easy intruder defense system for inward swinging door installs in a matter of seconds
- Securely locks an entry point in a lock-down situation
- Free-standing device (not permanently attached to door). Can be easily transferred to another access point
- No maintenance or installation costs required
- Less expensive than locksets and much more secure than small, inexpensive devices
- Designed for use on 36" wide commercial doors
- Heavy-duty steel construction
- Durable powder coat paint finish
- Lightweight for easy positioning
- Supplied with convenient wall-mounting rack
- Made in America
