

Job Boxes

- Job boxes are essential storage solutions designed for tools, supplies, and materials on worksites across various trades. With a spacious interior and full-width shelves, these boxes allow organized storage while protecting valuable equipment. The bi-fold lid opens upwards and folds completely out of the way, ensuring unrestricted access to contents. Durable powder-coat finishes provide resistance against corrosion, while robust hinges and reinforced lock systems help deter theft. Recessed handles and gas spring guards offer enhanced durability and protection during transport, making job boxes an indispensable tool for on-site efficiency.

Features

- Recessed handles for better mobility and added protection during transport.
- Weatherproof electrical pass-through for convenient power access inside the box.
- Heavy-duty hinges and lock systems for superior security and resistance against pry-ins.
- Durable powder-coat finish to prevent corrosion.
- Four-way skids allow access from any side for easy transportation.
- Gas spring guards prevent damage from shifting loads.
- Designed for versatile applications, suitable for trades like plumbing, carpentry, HVAC, electrical, and more.
