Sea Can Shelving

Enhance your shipping container storage efficiency and utility with our custom shelving units! Available on all shipping and storage containers.

To improve the functionality and the storage efficiency of your shipping container, consider our shelving and racking options. One solution we offer is a ready-made shelving kit that easily attaches to the D-rings that are already installed on all shipping containers. Installation is simple and doesn't require any drilling or welding into the container. For more specialized applications, we also offer custom shelving and racking options. This includes custom sizes and different types of material finishes. For more information, contact us for a consultation.
