

## Sidewalk Sweepers

### The Must-Have Mini Sweeper for Your Fleet

LS175 is the only 48" wide, closed-cabin, high-dump sweeper manufactured in North America. Built according to North American standards with a 10-to-12-year lifespan, the LS175 will outlast most competitive models. This machine offers convenience at every level and your employees won't need a CDL to hop in and start sweeping. Optional pressure washer and 15-foot retractable wander hose available.

### Applications

- Sidewalks
- Bike and pedestrian lanes
- Parking lots
- Curb side
- Alleys
- Pathways
- Alongside buildings

### Why the LS175

- Fully street legal lighting - safe and easy to use;
- A CDL permit is not required to operate this machine;
- 10 to 12 year lifespan will outlast most competitive models;
- Madvac has a 35+ years track record of success - when your machine is due for replacement we'll still be around
- For maintenance, LS175 offers unprecedented easy access to all critical components of the machine;
- LS175 can be purchased using Sourcewell (formerly NJPA) or other cooperative purchasing contracts-save money, get your machine quicker.

## Sidewalk Sweepers
