

Short/Mid-
Rise Lifts

Short/Mid-Rise Lifts

Challenger's Short- and Mid-Rise Lifts offer efficient and versatile solutions for vehicle maintenance in workshops or home garages. With lifting capacities of up to 10,000 lbs. and raised heights optimized for a variety of vehicles, these lifts are ideal for servicing trucks, SUVs, and passenger cars. Their durable powder-coated finish ensures longevity, while space-saving designs like flush mounting or portability enhance flexibility in any workspace.

Key Features & Benefits

- **Versatility:** Suitable for a wide range of vehicles, from compact cars to light trucks.
- **Capacity:** Available in 6,000 lb. or 10,000 lb. lifting capacities.
- **Durability:** Powder-coated finishes for long-lasting performance.
- **Flexibility:** Flush mounting or portable designs for space efficiency.
- **Safety:** Multiple locking positions and auxiliary adapters for secure operation.
- **Convenience:** Portable models feature easy relocation and adaptability for indoor or outdoor use.
